Dear Danielle:

It was a pleasure to visit your Insight Program and your students this past Monday. I was impressed with the program and the applied learning experiences that you are providing; I really enjoyed talking with your students about their projects. The College of Business Administration at Marquette University supports this program and would like to participate to the extent possible in the future. Depending on availability, we are happy to provide instructors, who specialize in certain topics, to present to your students.

You have an excellent program; please feel free to connect with me in the future. I am happy to help in any way I can.

Sincerely,

Joseph M. Terrian  
Assistant Dean
